

What do you like most about school? I like related arts, computer lab, and music. First, reason it is fun to use computers. Second, I do not have a computer. Third I would like to be a computer technician when I graduate college. I like computer lab because of all the reasons above and I learn easier on computer than in the classroom. Second, I have been learning with them. Last I like music because it is a fun Related Arts. Second, I like my music teacher. He is a great music teacher. In conclusion I like school for all the reason I have listed above, and much more.
